## **IN GENERAL**

#### ALL PATIENTS PLEASE ARRIVE 20 MINUTES PRIOR TO YOUR APPOINTMENT TIME

#### - MRI –

If you have a pacemaker, aneurysm clips, electronic implants, are breastfeeding, or are possibly pregnant please inform your physician, or call the imaging center prior to your appointment.

If you have an audio CD you would like to listen to during your exam, please bring it with you.

You may eat, drink and take your medications as usual, unless otherwise instructed.

- If you are scheduled for a CT exam with contrast, do not eat four hours prior to exam.
- If you are scheduled for a CT exam with IV contrast, please hydrate as much as possible for one day prior to exam.

CT

- For abdomen and pelvis exams scheduled in the morning, have only clear liquids after midnight before the exam. If you have an afternoon appointment you may have a light breakfast (toast and coffee), pills with water, then nothing but clear liquids until the appointment.
- Urogram, Chest, Head or extremities without contrast = No Prep.
- Patient may receive contrast media from BMCF Imaging at least one day before the exam, or patient may arrive 2 hours before appointment time to register and drink barium.
- If you are 65 or over, diabetic or have impaired kidney function and are scheduled for IV contrast you will need to have BUN/CREATNINE lab results prior to your exam.

### **ULTRASOUND**

| Pelvic or OB           | Drink   | 32oz. of water 1 hour before your appointment. |
|------------------------|---|--|
|                        | Do not void once you have started drinking the water. |  |
| Abdomen or Gallbladder | NPO after midnight.                                   |  |

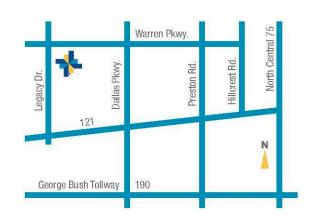

## X-RAY

| Procedure               | <b>Patient Prep</b><br>Nothing to eat/drink after midnight the night prior to exam. Approved medications may be taken with a          |
|-------------------------|---|
| Myelogram               | small amount of water. No pain medications the morning of the exam.   |
| Upper GI<br>Small bowel | Nothing to eat/drink after midnight the night prior to exam.  |
| Barium Enema            | Nothing to eat/drink after midnight the night prior to exam, and bowel prep the day before exam (if requested by ordering physician). |
