

A *Virtual* Child Seat Workshop for Parents and Caregivers

This free 60-minute workshop helps parents understand which seat is best for their child and covers installation tips for all types of car seats.

Topics include:

- Choosing the right car seat based upon age and weight
- Why child seats save lives
- Correct harnessing techniques
- LATCH v. seatbelt installation

To view upcoming workshop dates and to register for a workshop, please visit [AAA.com/ChildSafety](https://www.aaa.com/ChildSafety).

After registration, you will receive a confirmation email with a virtual webinar link to join.
